*Proposed amendments to Glendale Zoning Code  
As recommended to Village Council by GPHPC Resolution 2021-002*

§ 154.xx SIGNS

- (A) **Intent/Purpose:** The purpose of this section is to promote and protect the public health, convenience, comfort, prosperity, general welfare, and safety by encouraging safe and effective placement of signs which are visible from outdoors within the Village. It is the intent of this section to provide businesses in the Village with equitable sign standards in accord with fair competition and aesthetic standards acceptable to the community, to provide the public with a safe and effective means of conveying information and ideas as well as locating businesses, services and points of interest within the Village, and to provide for a safe vehicular and pedestrian traffic environment. This section is based on the premise that signs, if not regulated, can become a nuisance to adjacent properties or the community in general, can depreciate the value of other properties within the community, and can create distractions and obstructions that may contribute to traffic accidents. In this section, the Village intends to reduce and eliminate whenever possible these adverse effects of signs through objective, reasonable, content-neutral regulations as to the type, size, and location of signs while maintaining and preserving individual rights to commercial and noncommercial forms of expression.
